the streets of New York City (Clinton Hill, Whitestone, Hell's Kitchen, Washington Heights), *A Walk Among the Tombstones* stars Liam Neeson as unlicensed private eye and sober alcoholic Matthew Scudder. Supporting players include Dan Stevens (ex-*Downton Abbey*), David Balfour, lafur Darri lafsson, Adam David Thompson, and Sebastian Roche; TJ is played by Brian "Astro" Bradley. Scott Frank wrote the screenplay, and directed the film. The wife of a heroin wholesaler is killed and dismembered after he haggles over the price of her ransom. Who do you call when you can't call the cops? You call Matt Scudder. From Publishers Weekly Despite their dark titles (the words Slaughterhouse and Boneyard figured in the previous two), Block's splendid, award-winning Matt Scudder novels are by no means unrelievedly bleak. His latest—as well as offering the customary skillful plotting, adroit pacing and sure sense of New York character—features a wry humor all its own, along with a particularly ingratiating and convincing pair of computer hackers. The premise is grim, certainly: a pair of men who prey murderously on women progress to kidnapping the womenfolk of drug dealers and demanding huge ransoms. Former alcoholic PI Scudder—now going to more AA meetings than ever—reluctantly agrees to help one dealer, a Lebanese, after his wife is killed by the kidnappers. Slowly and methodically he discerns a pattern in the mayhem. With the help of his erstwhile police colleagues, his black Times Square sidekick TJ and his call-girl sweetheart, Elaine, Scudder tightens the net on the culprits. When they seize the daughter of a Russian dealer, he is ready for the showdown. Block isn't big on action, though when it comes it is swift, vivid and horribly convincing; his Scudder books are built on character, atmosphere, crackling dialogue and a great deal of brooding—the taste for them is addictive. An equal of Elmore Monard and Robert Parker, Block deserves similar acclaim.
