## Description :

Prsentation de l'diteurAs an ancient Sumerian god, Sin was one of the most powerful among his pantheon. . . Until the night Artemis brutally stole his godhood and left him for dead. For millennia, this ex-god turned Dark-Hunter has dreamed only of regaining his powers and seeking revenge on Artemis. If only life were that simple.Unfortunately he has bigger fish--or in Sin's case--demons, to fry. The lethal gallu that were buried by his pantheon are now stirring and they are hungry for human flesh. Their goal is to destroy mankind and anyone else who gets in their way. Sin is the only one who can stop themthat is if a certain

woman doesn't kill him first. Unfortunately, Sin discovers that now he must rely on her or witness an annihilation of biblical proportions. Enemies have always made strange bedfellows, but never more so than when the fate of the world hangs in the balance. Now a man who knows only betrayal must trust the one person most likely to hand him to the demons. Artemis may have stolen his godhood, but this one has stolen his heart. The only question is will she keep it or feed it to the ones who want him dead? From Publishers Weekly Sin, a Sumerian fertility god turned Vegas casino owner, and Kat, the zealous servant of bossy Greek goddess Artemis, knock boots and kick butt in Kenyon's juicy 11th Dark-Hunter paranormal love-fest (after 2006's Dark Side of the Moon). Sin's been on the warpath for thousands of years, since Artemis stole his godhood. Sin's also upset about the disappearance of his twin brother, Zakar, and the imminent invasion of the vampiric Sumerian gallu, who plan to liberate the Dimme superdemons and destroy all humanity. Kat agrees to kill Sin before he kills Artemis, but instead the two fall in madcap love while trying to prevent Armageddon. It's just another day's work for the immortals, who act a lot like ordinary quarrelsome people with way cool superpowers. Though readers may need a scorecard to keep up with the cast, this series puts a contemporary spin on classical mythology that an increasing number of fans have found irresistible.

Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. Booklist If revenge is a dish best served cold, Sin figures a few thousand years should make it good and frigid. He can't wait to kill Artemis for stealing his godhood, but first he has to deal with Earth-destroying gallu demons trying to escape their prison. As a preemptive strike, Artemis sends Katra to kill him. Realizing, though, that the gallu are the bigger threat, she willingly joins her enemy to stop them. Falling for him, however, could be the real problem. Longevity can be a series' best friend or worst enemy, yet Kenyon manages to find the middle ground in each installment in her Dark-Hunter series (immortal warriors guided by Artemis and pledged to defend humankind against vampires and other enemies), creating the wounded heroes, sarcastic humor, and adventurous romps paranormal-romance readers love while keeping any hint of sagging or self-indulgent plot at bay. As the mastermind behind an internationally popular, massively detailed fictional universe and overarching saga filling a dozen novels, Kenyon has written another fresh tale full to the brim with surprises. Davis, Nina C.
