[Read free] The Forex "Set Forget" Profit System: It is VERY DIFFICULT TO LOSE with this extremely reliable trading system (English Edition)

Par Mark Boardman : The Forex "Set Forget" Profit System: It is VERY DIFFICULT TO LOSE with this extremely reliable trading system (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Forex "Set Forget" Profit System: It is VERY DIFFICULT TO LOSE with this extremely reliable trading system (English Edition):

## Description :

Prsentation de l'diteurBefore you read on please note that the date and subject of my next Free Forex Trading Room will be announced on Friday 6th October 2017. Go to my website for details.I have two quick questions for you. The first question may not appear to have anything to do with Forex trading, but I will explain why it does.If you were part of a jury in a court of Law would you find someone guilty without any evidence?Did you know that90% of retail traders worldwide lose all their trading account money?The reason the first question is very relevant to Forex trading is that most of us (myself included in the past) have a tendency to believe what we read in books and on websites in the Forex industry. The books, software

programs and Forex indicators often promise the earth, but have absolutely no proof that what they promote actually works. However, we can all get seduced by the messages that we read and many of us end up spending some (in my case a lot) of money on numerous books, indicators and software programs. Who shows real EVIDENCE? In doing so we assume things are factual without any EVIDENCE. For that reason, we should not have any complaints when we find that the things we buy do not help us to become consistently profitable traders. If we do not ensure that we have EVIDENCE before we make a decision to spend money, then it is OUR own fault if the products or services that we buy do not deliver what we were hoping for. Is it therefore any wonder that 90% of all retail traders lose money? We are all being sold stuff that sounds and looks great, but doesn't actually deliver results in the real world of Forex trading. Sadly the Forex industry is awash with people and companies that are all after our money, and they will say virtually anything to get it. How often have you seen a historical Forex chart showing a so called successful trade using some or other indicator, software program or trading strategy? My guess is that you have seen plenty.

Is that EVIDENCE that a system actually works long term? Your search for a Forex trading system with REAL EVIDENCE is over. In my book, the Set Forget profit system I explain how I use a simple mathematical approach to trading Forex that has all the EVIDENCE you could ever ask for. For the last FIVE YEARS I have been demonstrating the Set Forget system LIVE in front of my trading room subscribers. So I DO have REAL TIME EVIDENCE that my system works. I do not make claims that cannot be backed up with real PROOF of their efficacy. You can have total faith that what I say is true because I demonstrate my system every week LIVE in my trading rooms. I now have a provable track record of over 500 trades, all captured on a live video recording. My results are there for all to literally see with their own eyes. If you want to see me prove my trading system for FREE then you can register for my next Free Forex Trading Room by going to my website. To find my website go to [www.forextradermark.com](http://www.forextradermark.com) or just Google "Forex trader Mark Boardman" and lots of pages of my website come up on the first page. You don't have to attend it live as I send a video recording to everyone that registers. However, before you do that it will take you an hour to read my book, so if you want to learn how to use a simple and reliable Forex trading system read the book (with a focus on Chapter 9), then hopefully I will see you in the next free trading room where you can learn how to implement it in real markets. Thanks Mark Boardman Presentation de l'diteur Before you read on please note that the date and subject of my next Free Forex Trading Room will be announced on Friday 6th October 2017.
